

Mrs. Roberts' & Mrs. Davis' Kindergarten Weekly Newsletter
January 30th -February 3rd, 2017

I hope you all had a wonderful break! I feel like all students are improving each week as they get used to the school environment. I hope you do as well. Here is an overview of what our week will look like. If you have any questions or concerns about anything please don't hesitate to call, text, send a note, or email me!

Email: lindsey.roberts@k12.wv.us

Please check the back of this newsletter for important/ongoing events at school!

Letter of the Week: Review

Number of the Week: 18

***Handwriting**: We will work on writing past letters, the number 18, names, and our sight words.

***Reading/Sight Words**: We will work on our new sight words "seven", "eight", "nine", and "ten" and focus on reviewing past letters (recognition, sound, and writing). We will also be learning about what to do in bad weather.

***Math**: We will focus on the number 18 and what it represents, as well as how to write it. We will also continue learning about 3D shapes (cube, cylinder, pyramid, prisms, sphere, & cone). We will continue to work on days of the week, months of the year, as well as counting 1-100 by ones, twos, fives, and tens. **Please practice counting to 100 by ones, twos, fives, and tens with your student at home!**

***Science/Social Studies/Art/Leader in Me/Greenhouse**: We will spend another week continuing to learn about different types of weather. We will have a read-aloud and craft activity on Friday.

***REN/Behavior**: Don't forget, a sheet will be sent home nightly in your student's folder. It will let you know how their behavior was for the day. It will also have a spot for you to write what book your student read/you read with them that evening. **Remember to read every night (Monday-Sunday) for at least 15 minutes. REN sheets are due every Monday.** Don't forget you can check your child's folder and Class Dojo to see how your child behaved throughout the day.

* **Please have your student continue to practice typing his or her name and number on the keyboard, so they can log on to the school computers more easily. They can also work on Splash Math and ABCya.com at home. These are great programs to help them with counting!**

Attendance Incentive: Wear superhero clothes (Only if your student has been here all day, every day this week)

***Homework**

Monday: Practice sight words-Please return the sight word book by Friday

Tuesday: Create the number 18 out of materials found around the house. (Ex: Glue cereal onto paper in the shape of the number 18). PLEASE DO NOT DO THIS ALL FOR YOUR STUDENT. It is not helping them at all if you do the whole project for them. Practice counting to 100 by 10s, 5s, 2s, & 1s.

Wednesday: Find a 3D shape (cube, cylinder, prism, sphere, pyramid, cone, etc.) to bring in to share with the class (Ex.-dice, can of soup, cereal box, party hat, etc.)

Thursday: Read his/her library book. Please return the book on Friday.

Friday-Sunday: Bring in something that starts with the letter U.

Activities to Know About

Thank you to everyone that brought in water bottles for our science experiments!

The 100th day of school will be on Jan. 31st, unless we have another snow day. We would like for each student to bring in 100 of an item to share with the class. We will also use what they bring to practice counting to 100 throughout the day. This could be legos, cereal, pennies, etc. We just ask that you send it in a zip lock bag, labeled with your student's name. Thank you so much!

Our school is having a pet food/need drive for the Putnam County Animal Shelter. Our goal is to collect 100 items by the 100th day of school (possibly Jan. 31st, depending on snow days). Requested items are: cat food, dog food, treats, blankets, cat litter, and newspaper. Please send in what you can to help us reach this goal and help the shelter! **Tuesday is the last day!**

Our school is making Valentine's Day cards for a local nursing home. If you could please send in donations of stickers, paper, etc. that you think would be good to use for this project, we would appreciate it! Please have these in by **Monday, February 6th.**

For our Valentine's Day activities, it would be great if you could send in an UNDECORATED box for your student to decorate in class to put Valentine's Day cards in. Also I will be sending home a class list for you to use so your student can give ALL of their classmates a valentine that day. These can't have candy due to county policies. Please send the box and cards in by **February 13th, so we can make sure all students have what they need.**
